

WEBSITE LEAD GENERATION TOOL AND SKIP TRACING

Turn website traffic into closed deals

The QuickBuy® Website Lead Generation Tool helps you uncover the prospects already engaging with your brand. Instantly capture verified contact and property data from visitors across your website, landing pages, and social media, **even if they never fill out a form.**

Each lead is enriched with contact info (email, phone, spouse name) and real estate data that can be synced to your CRM for immediate follow-up, then automatically synced to your CRM for immediate follow-up. Stay connected to more sellers and convert online interest into new listings.

Why Agents Love This Tool

All this data below and more automatically syncs into any CRM as a new contact.

Setup is simple: add a tracking script, connect your CRM, and start capturing new leads automatically.

Save leads with custom tags to segment.

- High-Value Homeowners
- Instant Offer Visitors

At only \$4 per lead, these are max intent leads and you'll keep this data forever.
